

September / October Newsletter...

Hi,

"So much to do and so little time" "Really Busy" "Where was the summer?" Can't believe summers over!" "Is it September already?"

These are just some of the sayings I have heard this week, as time passes for most of us far too quickly.

With this in mind I have got this months newsletter out as quick as I could and certainly alot quicker than last months. It should really have gone out in July. But several computer lessons later my skills are improving (I think).....and I am not quite as slow.

I thank you for all the positive feedback from my last newsletter and hope you enjoy reading this one as much.

Training

This photograph is taken from last months training, where we were learning about the new treatment protocols for 2017/18.

The old style 16 zone face map and the microzone are being replaced by the new, more effective, Pro 30 and Pro 60 treatments. Needless to say, we are very excited ...

Training is already booked for January and February and, luckily, it works nicely around our wedding trip to Canada in January, so no one will be missing out.
